MAESTRO RYAN CAYABYAB INVITES ENVERGANS TO MUSIC CAMP

Multi-faceted musician and the country’s music maestro, Professor Ryan Cayabyab visited Manuel S. Enverga University Foundation (MSEUF), August 18, 2016 to invite students, teachers and employees with interest in music for the Elements Music Camp in Indang, Cavite on November 13-17, 2016.

This is the second visit of Prof. Cayabyab who introduced Music 7101, a music industry that he and Mr. Julio D. Dy organized in 2010 for the Acapella project.

This time, the maestro promoted the Elements Music Camp.

The camp aims to bring together aspiring and professional singer-songwriters to bond and learn from one another and to give campers and mentors an entirely different avenue for artistic experiences.

For five days, there will be lectures, group presentations, case studies, and breakout sessions. With instruments at hand, the Camp will allow musicians from different genres with different styles and technique to share their experiences and ideas to a group with similar passion in music.

As a glimpse, Mr. C played some of his masterpieces that won national and international recognition and encouraged questions from the crowd and answered them practically and on how to compose and arrange simple songs to transform them into masterpieces.

Prof. Cayabyab was joined by the Element Music Camp alumni namely Gabby Alipe, Ebe Dancel, Bullet Dumas and Reese Lansangan who performed their original compositions that brought thunderous applause from the audience at the AEC Little Theater.
